jackiepalmer.me

Technical Skills:

Experienced: React, React Native

Strong: JavaScript(ES6), JQuery, Express, NodeJS, Git, Heroku, Firebase, MySQL, MongoDB, Pug

Software Engineering Projects:

Timbre | Software Engineer

Music event discovery application, scheduler, and playlist generator

- Created mockups and architecture diagrams to define product requirements and divide tasks
- Built a performant front-end with JQuery and CSS for ease of scaling and development agility
- Assessed the interaction between the application, database, and middleware systems to identify gaps in functionality
- Designed an intuitive user interface using Bootstrap

RetrieverIt.com | Software Engineer

Application to connect with other dog owners and find dog friendly businesses

- Implemented user accounts using Node and MySQL to provide social networking functionality
- Leveraged the Google Maps API to display the user's search results and provide location details

RosterReady | Software Engineer

Application used to help fill rec team rosters with available players

- Developed login component and user dashboard using React and Semantic UI
- Designed application architecture and data models using MongoDB to support schema flexibility

Professional Experience:

Kaiser Permanente | Pharmacy Technician

2011 - 2017

- Enter prescription and patient profile information using epims software
- Help patients navigate the complicated UX of digital pharmacy

Staybridge Suites | Front Desk Agent

2008 - 2011

- Communicated with booking and maint. departments to ensure prompt responses to guests' needs
- Designed knowledge based systems to encourage knowledge share between employees

Educational Experience:

University of California, San Diego, Software Engineering Immersive Program

2017

San Diego Miramar College, A.A. Liberal Arts: Health Sciences

2011

Art Institute of Seattle, A.A. Fashion Design

2003

Personal Interests:

I spend my free time hiking and camping with my dog Manny. When we are not out exploring the world I enjoy creating whether it be through coding, sewing, or drawing.
